

This year marks the third holding of the EYGF (European Young Generation Forum). The EYGF operates with the aim of acting as a medium where students can establish new networks, as well as introducing students to stimulating concepts in science and its development in this age. This will ultimately serve to form the foundations of a working partnership between outstanding individuals and to aid the advancement of science in Korea.

The 3rd EYGF (European Young Generation Forum)

Chaired by Miss Anne Kim (King's College London, UK)

Co-chaired by :-

- Miss Su Yeon Lee of ENST Bretagne, France
- Miss Silvia Lee, Austria
- Mr. Bong Gu Kang of RWTH Aachen, Germany

- Welcome Speech

Miss Anne Kim (SIG-Y Leader)

- Plenary Speech

- Team presentation

- Teambuilding: "Anne-chimedes' dilemma"

EGYF Networking

We cordially invite our members to come along and participate at the EYGF social. The social is aimed to introduce members to new acquaintances and thus develop the web of network among our European members. You are also welcome to join the other SIG Networking Bars on the second evening of the conference (SIG-W, SIG-T, SIG-B, SIG-E). By doing so, you will have the opportunity to engage with professionals and experts dedicated to your field of interest and further develop your interest and knowledge of the field.
